The following are steps to determine medical eligibility that must be completed prior to participation in intercollegiate athletics at Houghton College.

Step 1: Pre-participation Evaluation: All student-athletes are required to have a pre-participation physical exam prior to the first day of athletics related activity. No participation of any kind will be allowed without a physical.

Before going to the doctor for a physical, you should complete the history portion of the form, and review it with the examining physician at the time of the physical exam. The form requires a physician’s signature and, once completed, should clearly indicate your medical clearance status for all the sports you expect to participate in during the course of the academic year (indicate these sports at the top of the pre-participation form). Please have your examining medical provider clearly document name, address and phone number. For fall preseason athletes, completed forms must be returned to the Student Health Center prior to August 15. For students beginning in the spring (January), all forms must be submitted prior to any athletic participation. Forms may be printed from the websites listed below.

Step 2: Mandatory Insurance Acknowledgement Form: Any student participating in intercollegiate athletics will be enrolled in a mandatory accident-only insurance policy. Please read and sign the insurance clarification form and return it to the Athletic Training Room upon arrival on campus.

Also provide photocopies of primary insurance cards, front and back, to both Student Health Services and the Athletic Training Room. Copies of insurance cards given to the Athletic Training Room will be placed in the athlete’s personal folder along with the emergency contact information and kept in the assigned medical kit when teams travel off campus.

*Note: Providing these copies does not opt you out of the full-coverage insurance offered by the college to students who do not have a health insurance plan. You must still complete the online waiver located on the Student Health Services website if you wish to opt out.

Step 3: Release of Medical Information and Permission to Treat Minor forms: Return these forms with signatures to the certified athletic trainers in the Athletic Training Room upon arrival on campus.

Step 4: Read and sign each of the following forms:
- Risk Awareness Form
- ADD/ADHD Medication Form (this form will require a physician’s signature)
- Sickle Cell Trait Statement
- Concussion Statement
- Banned Substance Form

Forms and information can be found on the following website: www.houghton.edu/students/student-health-services/forms

Recommandations

I have examined the above-named student and completed the preparticipation physical evaluation. The athlete does not present apparent clinical contraindications to practice and participate in the sport(s) as outlined above. A copy of the physical exam is on record in my office and can be made available to the school at the request of the parents. If conditions arise after the athlete has been cleared for participation, the physician may rescind the clearance until the problem is resolved and the potential consequences are completely explained to the athlete (and parents/guardians).

Mandatory Insurance Acknowledgement Form

I understand that as a student-athlete participating in intercollegiate athletics at Houghton College, the college provides a secondary medical insurance policy that I will be enrolled in. To partially off-set this cost all students-athletes will be charged a $50.00 participation fee. I understand that I will be billed this fee upon signing this form and participating in athletics. This insurance policy will not take the place of any primary health insurance I carry; it will be considered a secondary medical insurance coverage. Upon an emergency or medical treatment, my primary health insurance will be billed first for any medical treatment received from a hospital(ER), orthopedic, specialist, physical therapist, etc. Costs incurred from an athletic related injury not covered by primary care insurance, will be submitted to this secondary insurance policy.

CONSENT AUTHORIZATION AND AUTHORIZATION FOR RELEASE OF MEDICAL RECORDS:

I authorize the release of my medical information that is pertinent to my participation in intercollegiate sports as may be requested by the certified staff members of Houghton College’s Athletic Training Staff and/or the Student Health Services. Information from these records will be used to provide appropriate care and to assist in medical eligibility decisions. All information will be considered confidential. All such records will be maintained in the athlete’s permanent medical record files located in the Athletic Training Room and Student Health Services.

As well, I give permission for Student Health Services and Athletic Training Room Staff (Certified Athletic Trainers) to share medical information that is pertinent to my participation in intercollegiate sports. I understand that a copy of any medical records from the team physician’s, primary care physician, specialist, physical therapist, etc. will be provided to the Certified Athletic Trainer(s) and will be kept in the athlete’s personal folder in the Athletic Training Room and Student Health Services. I understand that any shared information will be kept confidential and that I am not obligated to sign this release.

_____ Yes, I agree to release needed records pertaining to my athlete participation.

_____ No, I wish my records to remain confidential with my physician.

PERMISSION TO TREAT MINOR:

Student-athletes who are not 18 years of age must have their parents’ permission to receive medical care.

I give permission to the Certified Athletic Trainers and Medical Staff of Houghton College as well as Certified Athletic Trainers at the host institution to evaluate and treat my son/daughter. Every effort will be made to contact you and/or the person listed above on the Emergency Notification form prior to any medical services being rendered in an off-campus setting; however, emergency care will be provided as needed.

Assumption of Risk

I am aware that participation in intercollegiate athletics involves certain risks that may result in injuries as well as onset of a sudden illness or medical conditions; any of which could result in temporary impairment, permanent disability, or even death. I understand the above risks, and understand that participation in this sport is voluntary.

I understand my responsibility to myself and the athletic program at Houghton College to not withhold information, and will immediately alert the coach, certified athletic trainer, or team physician if an injury or illness arises that affects athletic performance.

ADD/ADHD Medication Statement

The NCAA requires documentation for stimulant medication commonly prescribed for Attention Deficit Disorder (ADD) and/or Attention Deficit Hyperactivity Disorder (ADHD). Many medications used to treat this disorder are among these substances banned by the NCAA. Institutions must present documentation that these medications have been prescribed by a physician and also have been supported by a clinical assessment for education or health reasons. See (www.ncaa.org) Banned Drugs and Medical Exceptions Policy for further explanation. Your medications should be listed below, on the Health History Form and also listed under current medical conditions/medications on cardstock form.

Please provide the following information if you are taking any medication for ADD/ADHD:

About Sickle Cell Trait:

- Sickle cell trait is an inherited condition of the oxygen-carrying protein, hemoglobin, in the red blood cells and it affects more than 3 million Americans.
- Although Sickle cell trait is most predominant in African-Americans and those of Mediterranean, Middle Eastern, Indian, Caribbean, and South / Central American ancestry, persons of all races and ancestry may test positive for sickle cell trait.
- Sickle cell trait is usually benign, but during intense, sustained exercise, hypoxia (lack of oxygen) in the muscles may cause sickling of red blood cells (red blood cells changing from a normal disc shape to a crescent or “sickle” shape). These abnormal cells can occlude bloodstream and “logjam” blood vessels leading to collapse from the rapid breakdown of muscles starved of blood.
- This muscle break down (Rhabdomyolosis) may also cause major damage to the spleen or kidneys and can be fatal.

Sickle Cell Trait Testing:

- The NCAA mandates that NCAA Division III student-athletes beginning their initial season of eligibility and students who are trying out for a team have knowledge of their sickle cell trait status before the student-athlete participates in any intercollegiate athletics event, including strength and conditioning sessions, practices, competitions, etc.
SICKLE CELL TRAIT TESTING WAIVER

I, _____________________________________________, understand and acknowledge that the NCAA and Houghton College mandate that all Division III student-athletes have knowledge of their sickle cell trait status. Additionally, I have read and fully understand the aforementioned facts about sickle cell trait and sickle cell trait testing.

Recognizing that my true physical condition is dependent upon an accurate medical history and a full disclosure of any symptoms, complaints, and prior injuries, ailments, and/or disabilities experienced, I hereby affirm that I have fully disclosed in writing any prior medical history and /or knowledge of sickle cell trait status to Houghton College personnel.

Check one box and sign below:

- [ ] I do not wish to undergo sickle cell trait testing as part of my pre-participation physical examination and I voluntarily agree to release, discharge, indemnify and hold harmless Houghton College, its officers, employees and agents from any and all costs, liabilities, expenses, claims, demands or causes of action on account of any loss or personal injury that might result from my non-compliance with the mandate of the NCAA and Houghton College Department of Intercollegiate Athletics.
  - I hereby understand that with checking that I do not wish to undergo sickle cell testing, I will be required to receive further education regarding sickle cell disease under the direction/instruction of the Houghton College Certified Athletic Trainer(s). ____________
    (Student-Athlete Initials)

- [ ] I have attended an additional educational session regarding sickle cell disease.

- [ ] I agree to have sickle cell trait testing and to be tested at my own expense.

- [ ] I have previously been tested for the sickle cell trait and will provide Houghton College with the results.

I have read and signed this document with full knowledge of its significance. I further state that I am at least 18 years of age and competent to sign this waiver. The above information may be shared with the Athletic Department.

I, _______________________, recognize that as a Houghton College athlete, I have to be an active participant in my own healthcare. I have the direct responsibility for reporting all of my injuries and illnesses to the Certified Athletic Trainers and/or Team Physician. I recognize that my true physical condition is dependent upon an accurate medical history and a full disclosure of any symptoms, complaints, prior injuries and/or disabilities experienced. I hereby affirm that I have fully disclosed in writing any prior medical conditions and will also disclose any future conditions to the Certified Athletic Trainers and/or Team Physician.

I further understand that there is a possibility that participation in my sport may result in a head injury and/or concussion that may incur temporary impairment, permanent disability, or even death. I understand the importance of immediately reporting symptoms of a head injury/concussion to the Certified Athletic Trainers and/or Team Physician.

By signing below, I acknowledge that Houghton College has provided me with specific educational materials on what a concussion is and given me an opportunity to ask questions about areas and issues that are not clear to me on this issue.

I, ______________________ have read the above and agree that the statements are accurate.

Banned Substance Form & Medication Exemption Information

Dear Health Care Provider:

_________________________ is an intercollegiate student athlete at Houghton College. Houghton College is an NCAA Division III institution and is governed by the rules and regulations set forth by the association. Legislation set forth by the NCAA mandates the collection of medical records for those student athletes who have been prescribed a medication that is on the banned substance for a specific condition where the medication is deemed an appropriate treatment. For a list of banned substance, please refer to the following website: [www.ncaa.org/health-safety](http://www.ncaa.org/health-safety).

There are specific procedures intercollegiate athletic departments must follow to show compliance with these regulations. In order to insure compliance, student athletes are being asked to provide their health care providers with this information so complete records may be obtained and maintained in their medical file. This information will allow the student athlete to continue to compete in intercollegiate athletics without the risk of a positive drug test and continue to take their appropriate medication as prescribed by their health care provider. Please return this form with all pertinent information to the student athlete.
