Physics (12 credits)

12 hours of credit in physics courses numbered 211 or above.

Political Science (16 credits)

16 hours of POLS coursework. (*If a student takes a Mayterm course worth only 3 credit hours, s/he may complete the minor with only 15 hours.)

Pre-Art Therapy

Students interested in art therapy as a career may prepare for graduate study in the field by either majoring in art with a structured minor in psychology, or by majoring in psychology with a structured minor in art. Either path will enable the student to fulfill the undergraduate requirements for graduate school admission and the guidelines of the American Art Therapy Association.

Art Major option: The American Art Therapy Association requires a minimum of 12 semester hours in psychology, including Developmental Psychology and Abnormal Psychology. Some graduate programs recommend additional undergraduate psychology coursework. Students majoring in art should take the following courses for at least a minor in psychology.

Psychology Courses to be taken with Art major:

PSY 213 Development Psychology.....4

PSY 305 Abnormal Psychology.....4

At least two more courses selected from the following in consultation with Professor Young

PSY 217 Adolescence and Emerging Adulthood.....2

PSY 310 Experimental Methods (with a prerequisite of PSY 307 and 308 or 309 Stats).....4

PSY 314 Child Psychopathology.....2

PSY 402 Counseling and Psychotherapy.....4

PSY 410 Practicum in Psychology (in an art therapy setting).....1, 2, or 3

Psychology Major option: The American Art Therapy Association requires a minimum of 18 semester hours in studio art, so that the student can “demonstrate proficiency and disciplined commitment in art making... using a variety of art materials and processes”. Students majoring in psychology should take the Applied/Pre-Therapy track, including a practicum in an art therapy setting. They should also take at least 18 credits in studio art classes to cover a variety of media, such as the following, selected in consultation with Advisor.

Art Courses to be taken with Psychology Major

ART 271 Ceramics I.....4

ART 241 Two-Dimensional Design.....2

ART 242 Three-Dimensional Design.....2

ART 211 Drawing I.....2

ART 245 Graphic Design I.....4

ART 221 Painting I.....4

PHED 347 Therapeutic Modalities.....	2
PHED 348 Therapeutic Exercise Management of Injuries.....	2

Pre-Law Interest

From the Mosaic law of the Pentateuch and the pugnacious speeches of the courts of Athens, the practice and study of law have roots deep in western history. Today, law continues to play a critical role in helping the dynamic world of the 21st-century function effectively. Politics, economics, technology - in an increasingly globalized world, every aspect of human culture is enmeshed in a web of national and international legal institutions. Indeed, few fields so deeply combine theory and practice as does the law, opening diverse avenues for applying the tools of the intellect to the problems of society.

Houghton's emphasis on the liberal arts provides a broad range of study as well as specific skills in critical thinking, reading comprehension, research, and oral and written communication. Organizations such as the American Bar Association (www.abanet.org) and the Law School Admissions Council (www.lsac.org) recommend precisely this sort of preparation for students planning to attend law school.

The study of Pre-Law is built around a personal, individualized relationship with one of the college's pre-law advisors. Students considering law school come from all majors and minors - no particular major is required. The pre-law advisors work with each student to develop a study that complements his or her chosen major by emphasizing the development of analytical thinking, habits of thoroughness, intellectual curiosity, scholarship, and the ability to organize data and communicate results. We recommend a balanced selection of courses, drawn from areas such as logic and critical thinking; communication, public speaking, debate, and writing; American history and politics; philosophy and ethics; mathematics and accounting; and economics, sociology, or other social sciences. These recommendations directly reflect law school admissions expectations.

The pre-law advisors also encourage students to consider additional forms of relevant preparation, such as internships in local law offices or opportunities for research and field experience. And they work closely with the Office of Career Services on matters such as LSAT preparation and the law school application process. Those interested in Pre-Law also sponsor various events, including the college's annual Constitution Day celebration and an associated reading group; excursions to law offices, courtrooms, or regional points of interest; and visits with members of Houghton's extensive network of alumni attorneys. Students are also encouraged to join the Runnymede Society, Houghton's student Pre-Law society. Founded in 2010, the Runnymede Society sponsors a range of events devoted to helping students prepare for law school and promoting campus discussion about issues of law and public affairs.

In addition to attending law school, pre-law students discover a range of callings, including graduate work in political science, philosophy, or business, as well as careers in law-related fields such as criminal justice, sociology, development, and journalism. The preparation required for success in law school translates well to many of the professions.

Pre-Medical Interest

Allopathic (awarding an M.D.) and osteopathic (awarding a D.O.) medical schools are very competitive, receiving far more applications each year than the limited number of available openings. Admission committees seek well rounded individuals with outstanding academic achievement at the undergraduate level. Ensuring these two qualities is vital if an applicant is to receive serious consideration for admission.

Students interested in pursuing medical training in graduate school should begin early seeking out opportunities to demonstrate a commitment to community service and to gain practical experience in the medical field. An example of the opportunities offered at Houghton College for students to gain such experiences in the context of elective coursework includes a semester long course in Medical Ethics (which offers a service learning experience in a health related venue).

The two academic benchmarks used by medical schools in screening applicants are the Medical School Application Test (MCAT) and college GPA. Strong performance in both of these is necessary in order to maximize one's chance of being accepted to medical school. Students considering medical school should expect to work diligently from the very beginning of their college experience in order to assure their best preparation for the MCAT. The MCAT is usually taken during the spring of the junior year to support an application for medical school matriculation in the fall following college graduation. Thus, those who intend to follow this timeline for application to medical school should complete the courses needed for MCAT preparation (one year of General Biology, one year of General Chemistry followed by one year of Organic Chemistry, one semester of Calculus followed by one year of Physics) by the end of their junior year. For specific course information please refer to the course descriptions in the appropriate departmental section of the catalog.

For further information about preparing for medical school, contact Dr. Jamie Potter at jamie.potter@houghton.edu.

Pre-Nursing Interest

Prerequisites for institutions offering BSN, accelerated BSN, MSN, or accelerated MSN can vary widely. Students need to investigate those requirements.

Nursing is one of the largest and fastest growing professions in our nation. Typical paths to registered nursing include completion of a Bachelor of Science in Nursing (BSN) degree or, for clinical nurse specialists, nurse anesthetists, nurse-midwives and nurse practitioners, a Masters of Science in Nursing

(MSN). Houghton students interested in nursing typically pursue one of three paths: a) enroll in an accelerated Bachelor of Nursing (BSN) degree after completion of a BA or BS in another field at Houghton College, b) enroll in an accelerated Masters of Nursing degree after completion of a BA or BS in another field at Houghton College, or, c) transfer to a Bachelor of Nursing (BSN) degree following completion of two years at Houghton College. Most students interested in pursuing nursing major in biology or chemistry, though many other majors are possible. Where a student takes a major other than biology or chemistry, the prerequisite science, psychology and math courses need to be included. An advantage to studying at Houghton College prior to pursuing the nursing degree is the availability of Intercultural Studies courses. These classes, including those related to public health, prepare students for global service opportunities in missions, NGO's, public health organizations and educational institutions. For further information contact Dr. Jamie Potter, at jamie.potter@houghton.edu.

The prerequisites for BSN, accelerated BSN and MSN or accelerated MSN degrees can vary widely. It is therefore highly recommended that the student interested in pursuing nursing following Houghton, work with Professor Jamie Potter, during their first and second years at Houghton College to review the specific requirements at selected colleges and universities.

Students planning on transferring to a BSN program or an accelerated BSN program typically complete the following courses:

BIOL 217 and BIOL 218 Human Anatomy and Physiology.....	4, 4
CHEM 151 and CHEM 152 General Chemistry.....	4, 4
BIOL 242 Microbiology.....	4
CHEM 187 and CHEM 188 Nutrition.....	4
SOC 307 and SOC 308 or SOC 309 or MATH 131 Statistics.....	3 or 4
PSY 213 Development Psychology.....	4

Other courses that may be required by specific BSN or accelerated nursing degrees (either BSN or MSN) include, introduction to psychology, pathophysiology, theology/religious studies, medical ethics, human growth and development, sociology and pharmacology.

Pre-physical Therapy: A pre-physical therapy track is available for students who are interested in pursuing graduate studies in physical therapy. A number of courses in physical education/athletic training are required for this track. For further information on the pre-physical therapy program contact [Dr. Aaron Sullivan](#).

Pre-Seminary Interest

Consult the Area Associate Dean of Biblical Studies, Theology and Philosophy, Michael Walters

For those who expect to attend seminary after college, The Association of Theological Schools offers the following guidelines:

- Students should develop to a satisfactory degree their ability to think independently, to communicate effectively, and to do research.

- Students should possess a general knowledge of past and present culture through study in the humanities and the natural and social sciences.
- The biblical languages are useful tools to acquire in the pre-seminary period. Latin may be helpful, especially in some traditions. Modern languages such as German, French, and Spanish are also valuable.

Pre-Veterinary Medicine Interest

Houghton provides a broad education, while offering those courses specified by veterinary medical colleges for admission. Veterinary colleges stress the desirability of a well-rounded post-secondary education. They accept students without regard to their pre-professional major and sometimes after three years or 90 hours of credit. However, most applicants major in biology or chemistry and, on the average, have more than 100 hours of pre-professional training. Because there are relatively few veterinary colleges, the number of students accepted each year into veterinary curricula is small. Therefore, excellence of academic achievement and personal character, as well as familiarity with the profession, is necessary for admission. For further information contact Dr. [Aaron Sullivan](#).
