

The Houghton University Church Matching Scholarship is a tangible and practical way for the local church, in partnership with Houghton University, to maintain an active role during a critical time in the lives of their students.

Houghton University will match dollar for dollar, up to a maximum of \$750 (\$375 per semester), for any student your church wishes to sponsor. The matching scholarship can help strengthen the ties and bonds between the student and his/her home church, and will help to supply the funds needed to make an education in a Christ-centered environment a reality. We invite your fellowship to join the growing number of groups desiring to help meet the financial need of their students. Please keep in mind that the gifts must be from the church and not money directly funneled from the parents.
